Size matters!

Have you ever squeezed your foot into a shoe size too small? Worn a coat that won't give you room to breathe? Or ridden a bicycle with the saddle too low? A mismatched nightmare, each and every one, which is why when we tell you that bed size matters, you'll know exactly what we're getting at.

A little known fact is that the most common reason for a bad night's sleep is the wrong bed size. Astonishingly, the standard double (4'6" x 6'3") yields less space for each of its occupants than a baby has in a cot! Suffice to say, the seamless sleep expectations of the average six-foot male in a standard double will be dashed: either cold feet or a bumped head are guaranteed. And that's just the length; lying side by side, in peaceful harmony with a loved one will truly be the stuff of dreams – because neither of you has room to turn.

At Abaca we care about the type of mattress that's best for you; as well as surface comfort; this means the optimum size of your bed – length and width, which is why "standard" for us has so many permutations, even before you start considering our bespoke offer. "Bespoke" covers European beds, antique beds and even craftsman made and designed to fit your perfect bedroom.

So before you consider your next bed, consult us about size; nothing will surprise us, in fact, you'll be amazed at how we can help and the value for money your Abaca mattress offers – night after night after night.

There's really nothing we don't know about sleep.

In fact, we're wild about it!

His Royal Highness the Prince of Wales

Campaign for Wool

Faced with unwelcome, unprecedented and enormous change permeating the wool industry, His Royal Highness the Prince of Wales, embarked on a movement that would challenge the demise of one of the UK's foremost industries.

His Campaign for Wool is multi-national, multi-sector and inclusive, and seeks to embrace all sections of wool users, from the very largest companies to the specialist artisans that translate Welsh craft into a valuable – and viable – industry.

As our record for being the biggest buyer of organic wool in the UK testifies, Abaca is proud to support the Campaign for Wool.

"I lay on my new mattress to try it out after it was delivered. And fell asleep!" Ian

Rhiannon Rowley, founder of Abaca

ABC of Organic

A is for Angora

The wonderfully soft, lustrous, mohair implicit in Abaca mattresses comes from angora goats. This finest quality organic mohair is produced from a herd of award-winning Angora goats farmed in the heart of the beautiful Blackdown Hills at Corrymoor Farm in Devon.

B is for Babies

All babies deserve the very best start in life. Nearly all baby food is now organic, so shouldn't every baby have an Abaca organic Moses basket mattress or cot mattress to sleep on?

C is for Cheese

Not any old cheese, but award winning Hafod cheese made on Patrick Holden's farm near Lampeter in West Wales. Patrick was Director of the Soil Association for many years and it was during his time there that the organic textile standards were developed. Hafod cheese is a twelve month matured traditional hard cheese made using unpasteurised milk from their Ayrshire herd.

"From night one we've had great sleeps on our new Abaca bed...It has felt like cloud nine!" Zoe and Tim

Introduction

With some seven years successful activity between the sheets, we felt it was time to offer our loyal customers something that offers savvy and whimsy; ingenuity and interest; fact and fun.

So it is with great pleasure and pride that I introduce you to the first edition of *Pillow Talk*, the newsletter we have designed to entertain and inform with interesting snippets, some hard facts and, of course, new product news.

The march of time has also introduced me to the wonders of social networking, so please log on to our web site www.abacaorganic.co.uk, follow our blog, twitter and Facebook updates and don't hesitate to contribute with your own news and views. We really look forward to hearing from you.

Finally, my heartfelt thanks go out to all of you who have bought from us over the years – and a warm welcome too, to those of you new to the Abaca world. You are all very special customers!

With best wishes

A handwritten signature in blue ink that reads "Rhiannon". The signature is stylized and cursive.

Rhiannon

Supporting HRH Prince Charles' charities in Wales

Local charities are a priority at Abaca and this year we have extended our support by way of a mentoring scheme, to the Prince's Trust and Prime Cymru. The Prince's Trust tackles the problems of young people in the principality, while Prime Cymru does the same for those of us who are in the prime of life.

As part of our support for the Prince's wonderful work in Wales, we spent a very happy afternoon at Ffos Las racecourse with many others of his charitable supporters. The sun shone, the horses were beautiful, and a *gwych* time was had by all!

Organic

A modern moniker, “organic” has come to influence every aspect of our lives, from the food we put into our bodies, to the glow we crave for our skin by way of natural toiletries and heat for our home with sustainable fuel. But how often do we really know what we’re getting?

We spend a third of our lives in bed, and until the last century, men, women and children have slept on untreated, unprocessed natural materials. During the last half of the 20th century however, the markets sustained a tremendous growth in oil-based man-made fabrics and fillings for mattresses – and an equivalent growth in the use of fire retardants.

During the night we breathe in whatever is being released from our mattress; do we really want synthetic inhalants disturbing our equilibrium? One of the great benefits of the organic mattress is the absence of chemicals and chemical additives bound in the materials we use.

At Abaca, organic means so much more than a buzzword. It means nature, purity, comfort and sustainability. It means longevity, quality and rest. Don’t lie to yourself with lesser mattresses; rely on Abaca for truly good, deep sleep.

Sleep Well, Sleep Organic, Sleep Abaca.

Moses basket mattress

Abaca moses basket mattresses are made in every conceivable length, breadth and width. We work to your individual template for the perfect size and fit. The template you send us is cut out of any available piece of paper and we get everything from wrapping paper to graph paper: they look great on the cutting room wall!

Cot Mattress

A good cot mattress will last your baby until he or she goes in to their first ‘big’ bed. An Abaca cot mattress is supportive and comfortable and gives your baby that all important flat surface to lie on. We make as many different cot mattresses as there are cots, contact us if the size you need isn’t on our web site.

Organic natural wool is at the heart of our products.

A naturally happy bedtime.

The Mattress Makers Ode

*She enters the showroom with somnolent regard
Eyeing the beds, small, medium and large
But the mistake she will make in less than a trounce
Is to judge her new mattress by the 30-second bounce*

*She sits on the bed edge, a-brim with anticipation
And decides on her future with little hesitation
The mattress that offers the best ricochet
Is the one she will choose, as night follows day*

*Woe to our hapless mattress customer!
Would that you had visited the splendid Abaca
Where you will enjoy a thorough appraisal
Of what’s bad and good - and also pleasurable*

*We ask pertinent questions and give you advice
On how to achieve good sleep in a trice
Our mattresses are organic and full of wonder
They offer, quite simply, the most seamless slumber*

*So before you embark on any bouncy activity
We suggest you become far more pernickety
And plump for Abaca - nothing less than the best
And guarantee forever, a peaceful night’s rest.*

“It was heaven sleeping in the bed last night...I can’t thank you enough. Not only is this the best bed I have ever slept in, but the service, care and attention to detail by Abaca is first class.” Natalie

Make it personal

A year or so ago a customer asked us whether we could create a unique mattress for his new daughter. We like nothing more than a challenge and such a privileged one too. After much thought, we were inspired to embroider the baby's name on to her brand new mattress. The delighted parents cherished the end result – not least because their daughter enjoys fabulous, quality sleep!

We're delighted to extend this free service to any customer who would like a name, or perhaps birth date embroidered on their mattress. Contact us for details.

"I have Post Viral Fatigue Syndrome, Asthma and Trigeminal Neuropathy and have been searching a very long time to find a mattress to which I have no reaction. I received a Ramsey mattress last month and want you to know how much of a success it has been! Thank you so much." Kirsty

Neither fish nor fowl nor good red meat!

Seven years ago when I started this business it was not possible to buy an organic pocket sprung mattress in the UK. My mission was to create the hallmark of natural mattresses, to be the bellwether of organic sleep. Our product, and resulting organic certification has been a critical part of giving our customers absolute confidence in what they were buying.

It's said that imitation is the sincerest form of flattery and since our launch and growth, other, newer companies have entered the fray to make organic claims which are frankly, hard to endorse. An organic cover doesn't make for an organic mattress – and an "organic" mattress that doesn't have certification isn't organic at all!

At Abaca we are qualified to use the Soil Association marque, which is quite simply the gold plated guarantee that when you buy from us, you're buying the real thing.

An amazing Weekend offer at Fronlas, Llandeilo

Fronlas is a picturesque and luxurious boutique hotel that lies on the western edge of the Brecon Beacons in South West Wales.

A beautiful townhouse in the market town of Llandeilo, Fronlas features four uniquely designed rooms boasting bespoke wallpaper, en suite bathrooms, luxury mattresses from Abaca and, for the majority, wonderful views. Those that require in-room entertainment will enjoy flat-screen televisions, DVD players and free wi-fi come as standard.

Guests with a high-pamper factor in mind will love Eva's delicious home-cooked organic breakfast, made with the finest local ingredients. Whilst those with an eye to sustainability can rest assured that Fronlas boasts implicit eco technologies including 100% green electricity, underfloor heating and solar-assisted hot water.

Abaca is delighted to offer you a free night at Fronlas when you buy one of our mattresses. Alternatively, if you prefer to try our products before you buy, book a night at Fronlas, our favourite B&B and we will refund the cost of your night's stay when you purchase. Better still, combine your visit to Fronlas with a trip to see us, and we'll show you how your mattress is made!

So that existing ABACA customers aren't left out, Fronlas is offering you a 10% discount and a free bottle of organic wine.

See www.fronlas.com for more information, availability and booking. **Please quote 'Abaca offer'.**

A warm welcome always awaits!

Beautifully appointed bedrooms named Un, Dau, Tri and Pedwar.

Unsurpassed attention to detail.

The market town of Llandeilo commands a stunning position over the beautiful Tywi valley.

Fronlas ticked every single box you could think of. There was so much attention to detail yet it was welcomingly calm and simple. This is the perfect model for how all B&B's should be run. Thank you Eva for all your help and guidance and how could we forget the HUGE packed lunch...burp! Steve & Jessica

The Good Night Guide (Part one)

- Choose your mattress with care, considering size as well as depth
- Give your sleep space to flourish: ensure your bed is not crowded by furniture
- Drink camomile or fennel tea before bed; both are relaxing and invite good rest
- Read a calming book
- Keep a pen and paper next to your bed. If you wake with worries, write them down and return to a carefree slumber knowing that your concerns are out of your head and on paper instead

Part two of the Good Night Guide will be in your next issue of *Pillow Talk*!

Little Black Bomber Cheddar from the Snowdonia Cheese Company.

"Abaca have provided me with a number of mattresses over the last seven years. I am delighted to be able to support a company that offers genuine organic mattresses and I have found them to be incredibly comfortable to sleep on." **The Duchess of Norfolk**

Sleepy Snippets

Sleep is the golden chain that ties health and our bodies together.

Thomas Dekker

O bed! O bed! Delicious bed! That heaven upon earth to the weary head.

Thomas Hood, Miss Kilmansegg – Her Dream

The best bridge between despair and hope is a good night's sleep.

E. Joseph Crossman

Even people who sleep in the same bed dream their own dreams.

Chinese proverb

Six hours' sleep for a man, seven for a woman, and eight for a fool.

English proverb

Fatigue is the best pillow.

Benjamin Franklin

We're always looking for Sleepy Snippets so please email us at pillowtalk@abacaorganic.co.uk

A few lovely (Welsh) things to do in bed

- Drink fine sparkling wine from Glyndwyr Vineyard.
- Nibble a tongue-tingling Little Black Bomber Cheddar from the Snowdonia Cheese Company (pictured left).
- Read Dylan Thomas or Roald Dahl.
- Watch a good film: *Amelia* with Richard Gere and Ewan McGregor or *The Edge of Love* with Keira Knightley and Sienna Miller.
- Gwneud Cariad [make love].
- Cysgu [sleep].
- Breuddwydion melys! [sweet dreams!].

With thanks...

As always there's a cast of thousands behind all we do at Abaca so if we've missed anyone let us know, we'll apologise and add you in to issue two.

A huge thank you to:

Charlie Bettinson for his wonderful photography.

Giovana Forte for her amazing word craft.

Sid Madge from Mad Hen for his energy, enthusiasm and encouragement.

Amanda Byrne, also from Mad Hen, for keeping us focused and engaged.

Thank you all!

Pillow Talk

Abaca extra | Summer/Autumn 2011
Issue One

Summer Sale!

To celebrate our advance into social networking, we are throwing our first summer sale! The Monmouth pocket sprung mattress is made from lots of organic wool and mohair with a generous layer of horsehair to give natural bounce.

To enjoy this exceptional 15% discount, log on to our website and link to the Abaca Facebook page for details.

And here are some other yummy things we make...

Pillows

Medium Firmness Organic Wool Pillows. These pillows are made of an outer cover of quilted cotton and filled with approximately 600gms of organic wool balls. The pillow can be unzipped for washing and it is possible to vary the amount of filling to get the perfect feel and height.

Mattress Pads

Abaca mattress pads add layers of natural organic materials to your existing mattress. Whether you want to bring a bit of organic luxury to your bedroom, or simply add layers to extend the life of an old mattress, an Abaca mattress pad will fit the bill.

Boats, caravans, motor homes

Some of the worst examples of mattresses I've ever seen have come out of boats! Thin bits of foam that don't fit the spaces properly and which provide very little comfort for the weary sailor. Abaca makes lovely mattresses for boats as well as for caravans, motor homes and horse boxes. Custom made in the exact size and depth you require, contact us for a quote.

Follow us on...

Twitter @AbacaOrganic
abacaorganic.tumblr.com
facebook.com/abacaorganic

In extras...

We will do all we can to help you choose the right mattress for you. Inside here you'll find some basic details, such as price, but do please ring us for a conversation that will change the way you think about mattresses for ever more! Once you've decided on a mattress we can also help with a new bed, bedding, pillows...a whole new sleeping experience in fact.

Abaca
WILD ABOUT SLEEP

Proud to belong to...

UK Soil Association
Soil Association Certification Ltd is the largest organic certification body in the UK, with almost 30 years experience in organic certification of farms and manufacturing units. We operate a rigorous certification system, and our trusted symbol ensures high consumer confidence in the integrity of products certified by us. As a not-for-profit business, any surplus income we make is gift-aided to the Soil Association charity to raise awareness, develop and safeguard the entire organic sector.

The Campaign for Wool

Every now and again something happens which is truly inspirational. HRH The Prince of Wales initiated this campaign in 2008 as a response to huge pressures on the wool industry. Our Welsh hills would look so different without sheep, and a whole way of life for upland farmers would disappear if we lost the market for wool. Wool is the ultimate sustainable material, as old as the hills but as modern as spaceflight. We are very proud to be able to support the Campaign for Wool.

What's coming up...

See us in September at the Soil Association Organic Food Festival in Bristol 2011

Most of the summer shows are over and done, but you can still come and see us at the Soil Association Organic Food Festival in Bristol. To be held on the 2nd and 3rd of September in the Harbourside area of the city, the festival is a huge celebration of all things organic. Come and try our mattresses and claim a 20% show discount on any bed or mattress.

Wool week celebrations in London...

From the 5th to the 11th of September we will be joining in with the celebrations of Wool Week. Last year's Wool Week saw part of Saville Row grassed over and sheep grazing happily on the London street!

Keep an eye on our Facebook page to find out just what we'll be getting up to.

Llandovery Sheep Festival

The 2nd annual Llandovery Sheep Festival will be held on the 24th and 25th of September. Last years event was a huge success with the whole town joining in the festivities. Abaca is delighted to be able to support the festival both by taking a stand and offering a mattress as a raffle prize.

For raffle tickets please contact us.

How it all began...

These days organic textiles are all the rage. But back in 2004, when Abaca started, it was a bit 'out there'. Thankfully, people have come around to our way of thinking and embraced the organic ethos.

Abaca has pioneered organic textiles, helping shift public perception from bohemian to conventional and desirable. Our organic ethos has established us as the standard bearer of excellence in a market brimming with average and often highly synthetic products.

Each of our mattresses is expertly crafted with pure, organic lambswool and cotton, a hallmark which sets us apart from the crowd. All our products are unique, naturally healthy, free of chemicals and crammed with goodness; thanks to the natural properties of Welsh wool, they are fire retardant too.

For advice on what mattress best suits your needs, or any aspect of...please talk to either **Rhiannon** or **Ceri** on **01269 598491**, and they'll tell you why we really are **Wild About Sleep**.

"By my own admission I'm a really difficult customer! Thank you Ceri and Rhiannon for the patience and expertise. I never thought I'd buy a mattress over the phone, but it's the best mattress I've ever had so thanks again." **Olivia**
